## **R**BOARD+

The simplest and easiest way to meet your thermal break requirement.

Building wrap, Thermacraft Watergate Plus, pre attached to the 1.2m x 2.4m sheet with Rboards unique system.

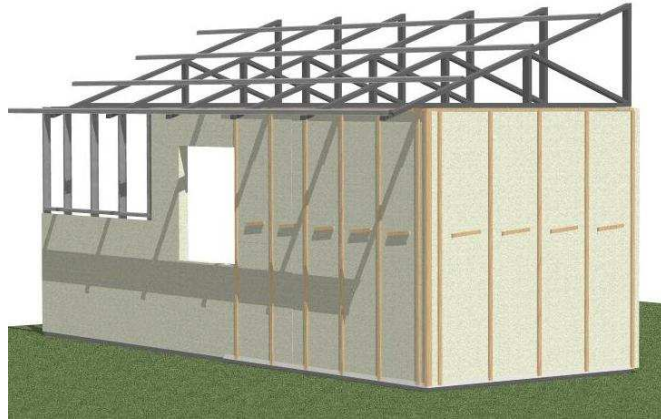

**Save hours of labour** by fitting your wrap and thermal break at the same time.

150mm flaps side and bottom making a simple to install, fast and easy solution.

Fixing to frame is simple with nails, screws or glue.

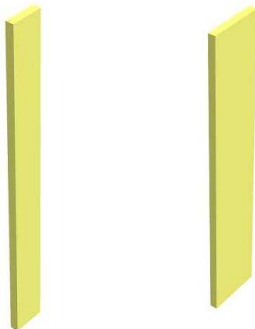

Claddings can be direct fixed (Including non absorbent) or a standard cavity construction system can be used on top if required.

Ideal for brick clad buildings as well.

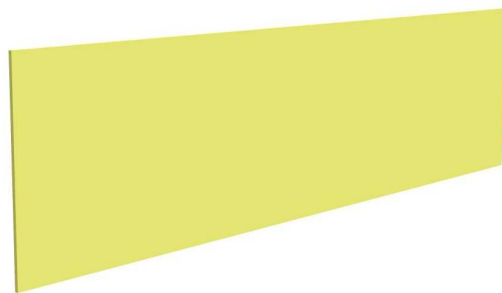

### OTHER OPTIONS

**R**STRIP
